## **Stop Work Policy**

The Company management is convinced that while performing any operations task the most important priority is the safety of people, their life and health, environment.

### **Objective:**

To confirm the authority of employees, on behalf of the Company, to stop work if its continuation presents hazards for any participant of a process or surrounding people.

For meeting this objective, the Company provides informing line managers and participants of work of the authority to stop work. The work may only be resumed after elimination of hazard and undertaking measures, reducing risks to acceptable level.

Each stop work event will be investigated in order to reveal causes and undertake efficient measures for reducing incident probability within the Company.

The employees, who have promptly made a stop work decision, which allowed to prevent a serious incident and/or decrease negative effects, will receive support at all levels of the Company.
